

Testimonials

"99% of what I read, in the financial press, is garbage. But Bretton Woods Research delivers the most important macroeconomic information an investor needs to know. **Because of the insight provided by Bretton Woods Research I've been able to double my gains within the space of a month!** A good analogy is that BWR functions like a weathervane. With Bretton Woods Research, I basically take their reports and ask myself, "how would legendary supply-sider Jude Wanniski invest given the major variables as presented by Bretton Woods?"

*William Pitney
Bretton Woods Client*

"I love the work of Bretton (Woods Research) because it continues in the framework of Jude."

*Scott Marsh
Provident Financial*

What You Can Expect As A Client

- **Domestic Market Coverage:** In-depth reports on significant developments in the U.S. political economy and our singular macroeconomic insight on how they affect markets.
- **Global Market Coverage:** Comprehensive coverage on developments and opportunities in foreign countries, with an emphasis on Emerging Markets.
- **Thematic Reports:** These pieces are highly valued by institutional investors for the detailed and meticulous information they provide. They are published on an ongoing schedule as follows:
 - MSCI World Ranking Quarterly
 - High Conviction Macro Trades Quarterly
 - U.S. Elections Watch As produced
- **Recommended Readings:** From our day-to-day surveillance, we publish several impact pieces per week that supplement our ongoing analysis of the global political economy.
- **Conference Calls:** These calls may be on a monthly basis or upon the request of our clients. We always welcome client communication.

Our Management Team

President & Global Economist *Vlad Signorelli*

Vlad Signorelli founded Bretton Woods Research, LLC after Polyconomics, Inc. ceased operations as a macroeconomic forecasting firm in 2006.

Mr. Signorelli first joined Polyconomics in 1995 as a Global Research assistant and produced analysis on New Zealand and Korea. In 1997, he became Global Readings editor. By 1999, he pursued opportunities for the firm through Bloomberg and the web, which he continued until March 2003. His internet columns have appeared in Dow Jones' **Markets Magazine**. Prior to returning to Polyconomics in 2004 as Director of Global Research, he was a product and online marketing manager for a European import company. Mr. Signorelli graduated from the University of Michigan with a BA in History.

Mr. Signorelli has been quoted in **Bloomberg**, and his analysis has appeared in **Seeking Alpha**, **Tech Central Station**, and the **Johnson Russia List**.

Chief Economist *Paul Hoffmeister*

Paul K. Hoffmeister is the Chief Economist of Bretton Woods Research LLC. Prior to joining Bretton Woods, he was the Director of Market Strategy and Chief Economist at Polyconomics, Mr. Hoffmeister is a member of the Board of Directors of MyType, Inc. and a macroeconomic consultant to Rock Canyon Advisory Group. Mr. Hoffmeister's market experience includes working for QuietLight Trading, LLC, trading derivatives on the S&P 500 at the Chicago Mercantile Exchange, then on the KOSPI 200 Index on the Korean Stock Exchange. In 2003, he founded Georgetowne Fund Management Corporation and Georgetowne Funds (a mutual fund trust company), which launched in December 2003 and the Georgetowne Long/Short Fund, an SEC-registered mutual fund. After internships with the Office of Intergovernmental Affairs and the Council of Economic Advisers in Washington, D.C., Mr. Hoffmeister graduated Georgetown University with a BSBA in Accounting and Finance.

Mr. Hoffmeister has appeared on **Kudlow and Co.**, and he has been quoted in the financial press including **Bloomberg** and **Reuters**. He has also written for **National Review Online**.
